Billboard Owner:

Dino Rentos Studios would like to introduce ourselves.

We are a full service foam prop manufacture in Orlando, Florida. Don't worry we ship projects all over the United States daily.

We can custom manufacture lightweight and strong graphic components for building and signs to any specification. Turn those flat billboards into 3D attention getters for your customers. Even add animation !

On the right is our latest foam and steel sculptured components that were mounted on the sign stem to simulate a giant spine.

We work closely with the installation team to insure a good design and install the first time.

Purchase right from manufacturer: Since we design and build your sign components here in Orlando, your customer will not pay extra markups.

Contact us any time for a quote on anything !
